

The 7-Step SIWES Placement Checklist

Free guide from Tech Faculty NG | techfaculty.ng

1

Confirm your course is on the ITF-approved SIWES list

Ask your department SIWES coordinator before you print a single letter.

2

Collect SPE-1 and ITF Form 8 early

Most delayed allowances trace back to forms submitted late or half-completed.

3

Build a one-page student CV

Name, course, level, 3 skills, 1 project link. Nothing else. One page only.

4

Shortlist 15 realistic IT hosts

Tech companies, agencies, hubs and incubation centres in your city - not only banks.

5

Send a short, specific placement email

Two sentences on what you can do, one line on your dates, CV attached.

6

Register your placement before Day 1

Unregistered placements are the number one reason students are not paid.

7

Keep your logbook weekly, not monthly

Ten minutes every Friday beats a panicked rewrite the night before assessment.

Want the full SIWES Success Kit?

12 email & DM templates, student CV templates, logbook pack, technical report outline, ITF allowance tracker, IT host directory and the convert-IT-to-job playbook.

Get it at techfaculty.ng/siwes-success-kit - ₦4,500 (introductory student price)
